MEETING MINUTES FOR OPERABLE UNIT NO. 7 (OU 7) DRAFT FINAL RCRA FACILITIES
INVESTIGATION/REMEDIAL INVESTIGATION (RFI/RI) PHASE I WORK PLAN REVIEW
MEETING AMONG CDH, DOE/RFO AND EG&G ROCKY FLATS, INC. - JEE-0205-91

Enclosed are meeting minutes for an OU 7 Draft Final RFI/RI Work Plan review meeting held on July 19, 1991. Present at the meeting were representatives from the Colorado Department of Health (CDH), the Department of Energy, Rocky Flats Office (DOE/RFO), EG&G Rocky Flats, and the subcontractor to EG&G Rocky Flats, IT/Stoller.

The purpose of the meeting was to assess the preliminary draft work plan page by page and address the comments/concerns of the regulatory agencies (EPA and CDH). This effort should reduce the time required for agency review and comment on the draft final document.

Should you have any questions regarding this transmittal, please contact Jennifer T. Crone of Remediation Programs at extension 5945.

MEETING MINUTES

Subject: Comments on Draft Phase I RFI/RI Work Plan - Present Landfill (OU 7)

Date: July 19, 1991

Time: 10:00 - 16:00

Location: Colorado Department of Health, Denver, CO

| | | |
|------------|------------------|-------------------------------------|
| Attendees: | Harlen Ainscough | Colorado Department of Health (CDH) |
| | Bob Birk | Department Of Energy (DOE) |
| | Jennifer Crone | EG&G, Rocky Flats Plant |
| | Greg Davis | S.M. Stoller Corporation |

Discussion:

The meeting began with a discussion of the general concerns of CDH and EPA regarding the Draft Phase I RFI/RI Work Plan for Operable Unit No. 7 (OU 7). Although Bill Fraser of EPA did not attend the meeting, his comments on the Draft Work Plan were provided to Harlen Ainscough for discussion during this meeting.

The distinction between Phase I and Phase II activities was discussed and further clarified. The Phase I investigation for OU 7 will characterize the site physical features and define contaminant sources. The Phase II investigation will determine the nature and extent of contamination and describe contaminant fate and transport. Based on this interpretation, CDH provided a list of site-specific objectives for the Phase I investigation which they believe best reflects the intent of the IAG definition of Phase I activities. CDH noted that these objectives would not significantly alter the Field Sampling Plan presented in the Draft Work Plan. These site-specific objectives have been incorporated into the Final Work Plan.

Following the discussion of general concerns, the attendees went page by page through the work plan to discuss specific comments and edits.
